REHABSYMPOSIUM2018

A Multidisciplinary Approach to the Acute Care Patient

SAVE THE DATE

SATURDAY, MARCH 10th, 2018
8:00AM-4:00PM • ECMC HEALTH CAMPUS

TOPICS:

- Updates in Neuroanatomy and Stroke Intervention
- Cardiopulmonary Physical Therapy: Intermediate and Advanced EKG Interpretation
- Developing and Sustaining a Safe Patient Handling Program
- Management of Individuals with Post-Intensive Care Syndrome
- Interprofessional Education and Communication in Rehab
- Evidence Based Updates in Wound care
- Modified Constraint Induced Movement Therapy using Telehealth
- Palliative Care for the Rehab Professional
- Psychological Considerations for Individuals following Stroke
- And more sessions in the works!

CONFERENCE DESCRIPTION:

Therapists working in acute care settings are challenged by the medical complexities of their patients and the responsibility of finding creative ways to improve patient outcomes. This conference is designed to provide knowledge of best practices, current trends and contemporary topics pertaining to the management of the acute care patient.
