Present:  Bishop Michael Badger, Ronald Bennett, Scott Bylewski, Jonathan Dandes, Kathleen Grimm, MD, Sharon Hanson, Michael Hoffert, James Lawicki, Christopher O’Brien, Jennifer Persico, William Pauly, Thomas J. Quatroche, Michael Seaman

Excused:  Ronald A. Chapin, Darby Fishkin, Thomas Malecki, CPA, Eugino Russi

Also Present:  Donna Brown, Anthony Colucci, III, Esq., John Cumbo, Peter Cutler, Andrew Davis, Richard Embden, Stephen Gary, Susan Gonzalez, Al Hammonds, Donna Jones, Charlene Ludlow, Keith Lukasik, Brian Murray, MD, James Turner, Karen Ziemianski

I. Call to Order:   The meeting was called to order at 4:30 p.m.

Mr. Dandes announced that Jack Quinn was appointed to the ECMC Board of Directors and that Thomas Quatroche has been appointed to the Board of Directors of America’s Essential Hospitals.

II. Minutes:   Moved by Michael Hoffert and seconded by Jennifer Persico, the Board of Directors unanimously approved the minutes of the May 29, 2018 meeting.

III. Action Items

A) Resolution Designating the Naming of Certain Spaces and Structures.
Moved by Michael Hoffert and seconded by Michael Seaman
Motion approved unanimously

B) Resolution Adopting a Negative Declaration in Connection with the Main Lobby and Building Envelope Renovation Project.
Moved by Ronald Bennett and seconded by Michael Hoffert
Motion approved unanimously

C) Approval of June 7, 2018 Medical/Dental Staff Appointments/Re-Appointments.
Moved by Michael Seaman and seconded by Bishop Michael Badger
Motion approved unanimously
IV. Reports of Corporation’s Management

Chief Executive Officer

Patient Experience

- “Providing an Excellent Patient Experience” meetings have been completed with behavioral health, med-surg and ED/CC nursing staff.
- Implementation of a Veteran Recognition Program, aimed at recognition of those who have served our country who may find themselves within our facility for health care.
- Hosted Patient Experience meeting with outpatient dialysis staff.

Culture

- Thomas Quatroche and Karen Ziemianski, RN attended the American Essential Hospitals 2018 VITAL conference. Ms. Ziemianski presented on “Transforming Quality of Care Through Frontline Mindfulness”
- John Cozemeria, RN, Team Leader in CPEP won WNYPNA Outstanding Staff Nurse Award
- Farmers Market is in full season mode.
- Beth Weslow, RN, received the 2018 Jackie Pacos Memorial Student Nurse Practitioner Scholarship Award from Nurse Practitioner Association of NYS, Region 1, Inc.
- Corporate Challenge Winner – Alex Simon, ECMC, Healthcare Information Reporting Analyst

Operations

- June 19th renaming ceremony – Barry and Deanna Snyder Dialysis and Medical Office Building
- New ECMC Chief Quality Officer – Donna Jones, RN, FACHE, CPHQ
- Searches for SVP of Human Resources and SVP, Operations continue with excellent candidates being presented for consideration.
- Key Statistics for the month were reviewed.*Outpatients visits up for month

Chief Financial Officer

A summary of the financial results through May 31, 2018 and a Quarterly Financial Statement and projected statement of Yearly Cash Flows were briefly reviewed and the full set of these materials are received and filed.
V. Reports from Standing Committees:

Building and Grounds Committee: Mr. Bennett advised that the team has done a phenomenal job with parking during construction on the campus; we continue to see our in-house workers doing a great job; all major projects are moving along; adjustments being made to volume sound of fire announcements; and lobby project going out for bid in July.

Human Resources Committee: Claims have dropped by 35 percent; added physician coverage for Behavioral Health has decreased job-related incidents.

Quality Improvement Committee: Mr. Hoffert, encouraged all board members to attend QI meetings. There were six presentations at this month’s QI committee meeting. Mr. Hoffert and others present reviewed the presentations with the board.

All reports except that of the Performance Improvement Committee are received and filed.

VI. Recess to Executive Session – Matters Made Confidential by Law
Moved by Bishop Michael Badger and seconded by Kathleen Grimm, MD to enter into Executive Session at 5:05 p.m. to consider matters made confidential by law, including certain litigation matters, strategic investments, and business plans. Motion approved unanimously.

VIII. Reconvene in Open Session
Reconvene in Open Session at 5:20 p.m. No action was taken by the Board of Directors in Executive Session. Motion approved unanimously.

IX. Adjournment: Moved by Michael Badger and seconded by Michael Seaman to adjourn the Board of Directors meeting at 5:20 p.m.

Michael A. Badger
Corporation Secretary
Resolution Designating the Naming of Certain Spaces and Structures

Approved June 26, 2018

WHEREAS, by Resolution approved by the Corporation’s Board of Directors on October 31, 2017, the Corporation set forth its policy regarding the naming of spaces and structures owned or otherwise controlled by the Corporation; and

WHEREAS, consistent with the Corporation’s policy, the ECMC Foundation, Inc. has engaged in negotiation with several donors to the Foundation regarding acknowledgement of donations that includes, among other things, the opportunity to name a Corporation space or structure in the honor or memory of a person or entity; and

WHEREAS, the Foundation has provided a listing of the information called for by the Corporation policy and is seeking the approval of the Board of Directors of the Corporation regarding the naming of spaces and structures as detailed on the attachment to this resolution;

NOW, THEREFORE, the Board of Directors resolves as follows:

1. The recommendations submitted by the Foundation as detailed on the attachment to this resolution are hereby approved.

2. The Foundation is delegated the authority to implement the naming substantially in accordance with the information contained in the attachment and in accordance with the Corporation’s October 31, 2017 policy as approved by the Board of Directors.

3. This resolution shall take effect immediately.

A Resolution of the Board of Directors Adopting a Negative Declaration in Connection with the Main Lobby and Building Envelope Renovation Project

Approved June 26, 2018

WHEREAS, Erie County Medical Center Corporation (the “Corporation”) has determined that it is appropriate and in the public interest that ECMCC enter into contracts for the design, planning and construction of the Main Lobby and Building Envelope Renovation Project (the “Action”); and

WHEREAS, ECMCC determined that it would serve as “Lead Agency” pursuant to the New York State Environmental Quality Review Act (“SEQR”) with respect to the Action; and

WHEREAS, ECMCC, as Lead Agency, in making a Determination of Significance with respect to the Action, has considered the Action, has examined the completed Full Environmental Assessment Form and has reviewed and discussed each criterion for determining significance set forth in Part 617.7 of the SEQR regulations.

NOW, THEREFORE, the Board of Directors resolves, as follows:

1. Based upon a consideration of the Action, an examination of the completed Full Environmental Assessment Form, a review and discussion of each criterion for making a Determination of Significance set forth in Part 617.7 of the SEQR Regulations, and such further investigation of the Action and its environmental impacts, if any, the Corporation has deemed appropriate, the Corporation makes the following findings with respect to the Action:

   a. No potentially large impacts on the environment from the Action are identified in the Full Environmental Assessment Form.

   b. The Action is not expected to trigger any significant adverse impacts, including those examples of impacts listed in Part 617.7 of the SEQR Regulations.

2. Based upon the foregoing investigation of the potential environmental impacts of the Action and considering both the magnitude and importance of each potential environmental impact, the Corporation makes the following determinations:

   a. The Action will not have a significant adverse impact on the environment and an environmental impact statement will not be prepared with respect to the Action; and

   b. The Board of Directors hereby authorizes the preparation of a Notice of Determination of Non-Significance (“Negative Declaration”) and the filing of such Negative Determination and Environmental Notice Bulletin (“ENB”) in accordance with the requirements of SEQR and the SEQR Regulations.
3. This resolution shall take effect immediately.

Michael A. Badger
Corporation Secretary
Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either “Yes” or “No”. If the answer to the initial question is “Yes”, complete the sub-questions that follow. If the answer to the initial question is “No”, proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

i. Coastal Resources.

i. Is the project site within a Coastal Area, or the waterfront area of a Designated Inland Waterway? Yes No

ii. Is the project site located in a community with an approved Local Waterfront Revitalization Program? Yes No

iii. Is the project site within a Coastal Erosion Hazard Area? Yes No

C. Planning and Zoning

**C.1. Planning and zoning actions.**

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? Yes No

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part 1

**C.2. Adopted land use plans.**

a. Do any municipally-adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? Yes No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located? Yes No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) Yes No

If Yes, identify the plan(s):

NYS Heritage Areas: West Erie Canal Corridor

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? Yes No

If Yes, identify the plan(s):
C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. □ Yes □ No
   D-M (Medical Campus) under the Buffalo Green Code Adopted by the City in 2017.

b. Is the use permitted or allowed by a special or conditional use permit? □ Yes □ No

c. Is a zoning change requested as part of the proposed action? □ Yes □ No
   i. What is the proposed new zoning for the site? __________________________________________

C.4. Existing community services.

a. In what school district is the project site located? Buffalo Public Schools (City of Buffalo)

b. What police or other public protection forces serve the project site?
   City of Buffalo Police, Erie County Medical Campus Police, Erie County Sheriff, New York State Trooper

c. Which fire protection and emergency medical services serve the project site?
   City of Buffalo Fire Department and Erie County Medical Campus Corporation

d. What parks serve the project site?
   None

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Community Service

b. a. Total acreage of the site of the proposed action? _______ <1 acres
   b. Total acreage to be physically disturbed? _______ <1 acres
   c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? _______ 69+/- acres

c. Is the proposed action an expansion of an existing project or use? □ Yes □ No
   i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % <10% Units: 4,700 SqFt

d. Is the proposed action a subdivision, or does it include a subdivision? □ Yes □ No
   i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types)
   iii. Number of lots proposed? _______
   iv. Minimum and maximum proposed lot sizes? Minimum _______ Maximum _______

e. Will proposed action be constructed in multiple phases? □ Yes □ No
   i. If No, anticipated period of construction: _______ 12 months
   ii. If Yes:
      • Total number of phases anticipated
      • Anticipated commencement date of phase 1 (including demolition) _____ month _____ year
      • Anticipated completion date of final phase _____ month _____ year
        Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases: ______________________________________
        ______________________________________
        ______________________________________

Page 3 of 13
f. Does the project include new residential uses? ☐ Yes ☑ No

g. Does the proposed action include new non-residential construction (including expansions)? ☑ Yes ☐ No

If Yes,

i. Total number of structures: 1

ii. Dimensions (in feet) of largest proposed structure: 40 ft height; 40 ft width; and 120 ft length

iii. Approximate extent of building space to be heated or cooled: 4,700 square feet

h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage? ☐ Yes ☑ No

If Yes,

i. Purpose of the impoundment:

ii. If a water impoundment, the principal source of the water: ☐ Ground water ☐ Surface water streams ☐ Other specify:

iii. If other than water, identify the type of impounded/contained liquids and their source:

iv. Approximate size of the proposed impoundment. Volume: _ million gallons; surface area: _ acres

v. Dimensions of the proposed dam or impounding structure: _ height; _ length

vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete):

---

**D.2. Project Operations**

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both? ☑ Yes ☐ No

(Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)

If Yes:

i. What is the purpose of the excavation or dredging? Foundation/footings

ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?
   - Volume (specify tons or cubic yards): <100 cubic yards
   - Over what duration of time? <2 months

iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them.

iv. Will there be onsite dewatering or processing of excavated materials? ☐ Yes ☑ No

v. What is the total area to be dredged or excavated? > 1 acres

vi. What is the maximum area to be worked at any one time? >1 acres

vii. What would be the maximum depth of excavation or dredging? >6 feet

viii. Will the excavation require blasting? ☐ Yes ☑ No

ix. Summarize site reclamation goals and plan:

Reclaim to match existing

---

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area? ☐ Yes ☑ No

If Yes:

i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description): 
ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

iii. Will proposed action cause or result in disturbance to bottom sediments?  
   If Yes, describe:
   □ Yes □ No

   iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation?  
      If Yes:
      • acres of aquatic vegetation proposed to be removed:
      • expected acreage of aquatic vegetation remaining after project completion:
      • purpose of proposed removal (e.g. beach clearing, invasive species control, boat access):

      • proposed method of plant removal:
      • if chemical/herbicide treatment will be used, specify product(s):

   v. Describe any proposed reclamation/mitigation following disturbance: _________________________________________________

   c. Will the proposed action use, or create a new demand for water?  
      □ Yes □ No

      i. Total anticipated water usage/demand per day: ____________________ gallons/day

      ii. Will the proposed action obtain water from an existing public water supply?  
        □ Yes □ No

        If Yes:
        • Name of district or service area:
        • Does the existing public water supply have capacity to serve the proposal?  
          □ Yes □ No
        • Is the project site in the existing district?  
          □ Yes □ No
        • Is expansion of the district needed?  
          □ Yes □ No
        • Do existing lines serve the project site?

      iii. Will line extension within an existing district be necessary to supply the project?  
        □ Yes □ No

        If Yes:
        • Describe extensions or capacity expansions proposed to serve this project:

        • Source(s) of supply for the district:

      iv. Is a new water supply district or service area proposed to be formed to serve the project site?  
          □ Yes □ No

          If, Yes:
          • Applicant/sponsor for new district:
          • Date application submitted or anticipated:
          • Proposed source(s) of supply for new district:

      v. If a public water supply will not be used, describe plans to provide water supply for the project:

      vi. If water supply will be from wells (public or private), maximum pumping capacity: _______ gallons/minute.

   d. Will the proposed action generate liquid wastes?  
      □ Yes □ No

      i. Total anticipated liquid waste generation per day: ____________________ gallons/day

      ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each):

      iii. Will the proposed action use any existing public wastewater treatment facilities?  
          □ Yes □ No

          If Yes:
          • Name of wastewater treatment plant to be used:
          • Name of district:
          • Does the existing wastewater treatment plant have capacity to serve the project?  
            □ Yes □ No
          • Is the project site in the existing district?  
            □ Yes □ No
          • Is expansion of the district needed?
iv. Will a new wastewater (sewage) treatment district be formed to serve the project site? □Yes□No
If Yes:
• Applicant/sponsor for new district: ________________________________
• Date application submitted or anticipated: ________________________
• What is the receiving water for the wastewater discharge?

v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge, or describe subsurface disposal plans):
______________________________________________________________
________________________________________________________________________
________________________________________________________________________
________________________________________________________________________

vi. Describe any plans or designs to capture, recycle or reuse liquid waste: ________________________________________________________
                                                                 __________________________________________________________________________
                                                                 __________________________________________________________________________
                                                                 __________________________________________________________________________

f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations? □Yes□No
If Yes, identify:
• Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)
  Machinery that is to be determined at a later time will be used in construction and may or may not be a source of emissions

• Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)
  Machinery that is to be determined at a later time will be used in construction and may or may not be a source of emissions

• Stationary sources during operations (e.g., process emissions, large boilers, electric generation)

    i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year) □Yes□No

    ii. In addition to emissions as calculated in the application, the project will generate:
    ________________________________________________________________
    • Tons/year (short tons) of Carbon Dioxide (CO₂)
    • Tons/year (short tons) of Nitrous Oxide (N₂O)
    • Tons/year (short tons) of Perfluorocarbons (PFCs)
    • Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
    • Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)
    • Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

    _____________________________Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
    _____________________________Tons/year (short tons) of Nitrous Oxide (N₂O)
    _____________________________Tons/year (short tons) of Perfluorocarbons (PFCs)
    _____________________________Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)
    _____________________________Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

    _____________________________Tons/year (short tons) of Carbon Dioxide (CO₂)
    _____________________________Tons/year (short tons) of Nitrous Oxide (N₂O)
    _____________________________Tons/year (short tons) of Perfluorocarbons (PFCs)
    _____________________________Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
    _____________________________Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)
    _____________________________Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

    _____________________________Tons/year (short tons) of Carbon Dioxide (CO₂)
    _____________________________Tons/year (short tons) of Nitrous Oxide (N₂O)
    _____________________________Tons/year (short tons) of Perfluorocarbons (PFCs)
    _____________________________Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
    _____________________________Tons/year (short tons) of Carbon Dioxide equivalent of Hydroflourocarbons (HFCs)
    _____________________________Tons/year (short tons) of Hazardous Air Pollutants (HAPs)
h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)?
   If Yes:
   i. Estimate methane generation in tons/year (metric):
   ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring):

i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations?
   If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust):

j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services?
   If Yes:
   i. When is the peak traffic expected (Check all that apply): ☐ Morning ☐ Evening ☐ Weekend ☐ Randomly between hours of ________ to ________.
   ii. For commercial activities only, projected number of semi-trailer truck trips/day:
   iii. Parking spaces: Existing __________ Proposed __________ Net increase/decrease __________
   iv. Does the proposed action include any shared use parking? ☐ Yes ☐ No
   v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe:

vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site?

vii Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles?

viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes?

k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy?
   If Yes:
   i. Estimate annual electricity demand during operation of the proposed action:
      TBD
   ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other):
      Local utility grid, gas provider
   iii. Will the proposed action require a new, or an upgrade to, an existing substation? ☐ Yes ☐ No

l. Hours of operation. Answer all items which apply.
   i. During Construction:
      • Monday - Friday: Daylight hours
      • Saturday:
      • Sunday:
      • Holidays:
   ii. During Operations:
      • Monday - Friday: 24 Hours
      • Saturday:
      • Sunday:
      • Holidays:

</tbody>
</table>
s. Does the proposed action include construction or modification of a solid waste management facility? ☑ Yes ☐ No
If Yes:
  i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities):
  ii. Anticipated rate of disposal/processing:
      • _____ Tons/month, if transfer or other non-combustion/thermal treatment, or
      • _____ Tons/hour, if combustion or thermal treatment
  iii. If landfill, anticipated site life: ________________ years

t. Will proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste? ☑ Yes ☐ No
If Yes:
  i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility:
     ____________________________________________
     ____________________________________________
  ii. Generally describe processes or activities involving hazardous wastes or constituents:
     ____________________________________________
     ____________________________________________
  iii. Specify amount to be handled or generated _____ tons/month
  iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents:
     ____________________________________________
     ____________________________________________
  v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility? ☑ Yes ☐ No
If Yes: provide name and location of facility:
     ____________________________________________
     ____________________________________________
If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility:
     ____________________________________________
     ____________________________________________

E. Site and Setting of Proposed Action

E.1. Land uses on and surrounding the project site

a. Existing land uses.
  i. Check all uses that occur on, adjoining and near the project site.
     ☑ Urban ☐ Industrial ☐ Commercial ☐ Residential (suburban) ☐ Rural (non-farm)
     ☐ Forest ☐ Agriculture ☐ Aquatic ☐ Other (specify): ____________________________
  ii. If mix of uses, generally describe:
     ____________________________________________
     ____________________________________________

b. Land uses and covertypes on the project site.

  Describe: ____________________________                                              | 0               | 0                               | 0                  |
c. Is the project site presently used by members of the community for public recreation? □ Yes □ No
   i. If Yes: explain: ____________________________________________________________

d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed
   day care centers, or group homes) within 1500 feet of the project site? □ Yes □ No
   If Yes,
   i. Identify Facilities:
      Fillmore Jr. High School, Buffalo Public School #84, PS 197 Math Science Technology

   e. Does the project site contain an existing dam? □ Yes □ No
      i. Dimensions of the dam and impoundment:
         • Dam height: ____________________________ feet
         • Dam length: ______________________________ feet
         • Surface area: ____________________________ acres
         • Volume impounded: ____________________________ gallons OR acre-feet
      ii. Dam’s existing hazard classification: _________________________________________
      iii. Provide date and summarize results of last inspection:

   f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility,
      □ Yes □ No
      or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility?
      If Yes:
      i. Has the facility been formally closed? □ Yes □ No
         • If yes, cite sources/documentation: _________________________________________
      ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:

      iii. Describe any development constraints due to the prior solid waste activities:

   g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin
      property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? □ Yes □ No
      If Yes:
      i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred:
         The site is an active hospital and generates pharmaceutical and medical waste, referred to as “medical waste” and regulated as such. Some wastes may
         be considered “hazardous” or “bio-hazardous”

   h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any
      remedial actions been conducted at or adjacent to the proposed site? □ Yes □ No
      If Yes:
      i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site
         Remediation database? Check all that apply:
            □ Yes – Spills Incidents database Provide DEC ID number(s): 1706277
            □ Yes – Environmental Site Remediation database Provide DEC ID number(s):
            □ Neither database
      ii. If site has been subject of RCRA corrective activities, describe control measures:
         Case Closed 10/12/2017
         C915279: Classification A (Active) Currently work is underway and not yet complete.
         915165: Classification 02

   i. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? □ Yes □ No
      If yes, provide DEC ID number(s): C915279, 915165

   iv. If yes to (i), (ii) or (iii) above, describe current status of site(s):
         C915279: Classification A (Active) Currently work is underway and not yet complete.
         915165: Classification 02
v. Is the project site subject to an institutional control limiting property uses?  
   • If yes, DEC site ID number: 
   • Describe the type of institutional control (e.g., deed restriction or easement): 
   • Describe any use limitations: 
   • Describe any engineering controls: 
   • Will the project affect the institutional or engineering controls in place?  
     • Yes  
     • No  
   • Explain: 

<table>

| b. Are there bedrock outcroppings on the project site?  
   • If Yes, what proportion of the site is comprised of bedrock outcroppings? | N/A % |
| c. Predominant soil type(s) present on project site:  
   • Urban soils | 100 % |
| d. What is the average depth to the water table on the project site? | N/A feet |
| e. Drainage status of project site soils:  
   • Well Drained:  
   • Moderately Well Drained:  
   • Poorly Drained: | 100 % of site |
| f. Approximate proportion of proposed action site with slopes:  
   • 0-10%:  
   • 10-15%:  
   • 15% or greater: | | 100 % of site |
| g. Are there any unique geologic features on the project site?  
   • If Yes, describe: |
| h. Surface water features.  
   i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)?  
   ii. Do any wetlands or other waterbodies adjoin the project site?  
   iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency?  
   iv. For each identified regulated wetland and waterbody on the project site, provide the following information:  
     • Streams:  
     • Lakes or Ponds:  
     • Wetlands: | | Approximate Size |
| v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies?  
   • If yes, name of impaired water body/bodies and basis for listing as impaired: |
| i. Is the project site in a designated Floodway?  
   • Yes  
   • No |
| j. Is the project site in the 100 year Floodplain?  
   • Yes  
   • No |
| k. Is the project site in the 500 year Floodplain?  
   • Yes  
   • No |
| l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer?  
   • If Yes:  
     • Name of aquifer: |
m. Identify the predominant wildlife species that occupy or use the project site:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places? ☑ Yes ☐ No
If Yes:
   i. Nature of historic/archaeological resource: ☐ Archaeological Site ☐ Historic Building or District
   ii. Name: _______________________
   iii. Brief description of attributes on which listing is based: _______________________

f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory? ☑ Yes ☐ No

g. Have additional archaeological or historic site(s) or resources been identified on the project site? ☑ Yes ☐ No
If Yes:
   i. Describe possible resource(s):
   ii. Basis for identification: _______________________

h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource? ☑ Yes ☐ No
If Yes:
   i. Identify resource: _______________________
   ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): _______________________
   iii. Distance between project and resource: ___________ miles.

i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666? ☑ Yes ☐ No
If Yes:
   i. Identify the name of the river and its designation: _______________________
   ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666? ☑ Yes ☐ No

F. Additional Information
Attach any additional information which may be needed to clarify your project.

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification
I certify that the information provided is true to the best of my knowledge.

Re: ECMC Lobby Expansion - SEQRA

Dear Michael:

In accordance with the State Environmental Quality Review Act (SEQRA), Article 8 of the Environmental Conservation Law and outlined in Part 617 of the implementing regulations, an environmental review was initiated for the proposed construction of the new 4,700 SF entryway expansion on the existing Erie County Medical Center (ECMC) building. This Proposed Action was categorized as an Unlisted Action with a coordinated environmental review and Lead Agency designation undertaken. This coordinated review included correspondence sent out to Erie County, NYS Department of Health, and the City of Buffalo Environmental Management Commission with comments requested by May 16, 2018.

As of the date of this letter, no comments have been received nor has there been any correspondence from the potentially involved agencies regarding ECMCC being designated as the Lead Agency.

Therefore, ECMCC is recommended to confirm themselves as the Lead Agency and continue with the environmental review in Parts 2 and 3 of the Environmental Assessment Form, moving towards making a final determination of significance on the Proposed Action.

Should you have any questions or require additional information, please do not hesitate to contact me.

Very truly yours,
Clark Patterson Lee

Justin W. Steinbach, AICP
Associate
CALL TO ORDER

The meeting was called to order at 3:03 pm. The Medical Executive Committee endorsed and the Board of Directors approved the May 2018 Credentials Committee meeting minutes, including the approval of an applicant flagged for their further review and discussion of the dossier.

The Committee met with an applicant and the Chief of Service of the sponsoring department to review and discuss information in the dossier specific to post graduate training.

ADMINISTRATIVE

The Credentials Committee was made aware of recent resignations, application withdrawals, leave requests or conclusions and presents the following names to the Executive Committee for information.

A. Deceased – None
B. Applications Withdrawn – Application Processing Cessation – Paterson, Melissa CRNA
C. Automatic Processing Conclusion – (inactive applications > 180 days from date of signature) – None
D. Resignations

**OLD BUSINESS**

**Office Operations**

=S. Ksiazek applauded the efforts of the Medical-Dental Staff Office team with collecting the 2018 dues, with less than 10 outstanding.

=The wording of the Professional Reference Form has been amended in an effort to provide more clarity for the respondents when additional information is to be supplied.

=The Medical-Dental Staff Office and Corporate Compliance staff are working together on a shared list of employed Allied Health Professionals and their collaborating/overseeing physicians.

=At last month’s meeting, a member of the Credentials Committee asked if the wording on the self-disclosure page of the Initial Appointment application might be amended to prompt for added detail regarding post graduate training. S.Ksiazek provided an overview of other pages of the application where those prompts exist and the due diligence of the Primary Source Verifications done by the staff, which have been more than sufficient to identify issues. In addition, the current form is harmonized with Kaleida Health to foster future collaboration with the electronic application process. The Committee was satisfied with the explanation and requested no further action.

=S. Ksiazek announced a long awaited significant step forward for systems efficiency: the 2018 UB resident roster, mass updated by Kaleida Health IT, has for the first time flowed over to the ECMC side of the shared credentialing software. Per ECMC IT, minor issues have been noted and are being addressed. This is something that we have been asking to have happen for years and will significantly decrease the manual data entry of residents into the Meditech system by IT staff.
**Letter Templates**
In order to ease the transition of the Medical-Dental Staff Office, S. Ksiazek is crafting as many letter templates as can be thought of to ensure the correspondence bank is stocked adequately for future use/need.

**Privilege Forms**

**Fluoroscan**
With the transition of the Radiation Physicist in-house to a contracted outside service, the Medical-Dental Staff Office seized the opportunity to reach out to the Department of Radiology/Imaging Services for a review and update of the training materials and privilege forms. The training and testing materials were reviewed by the Assistant Director of Imaging, with no changes made. The contact information on the Initial Privilege Form, the Emergency Medicine, Orthopaedic Surgery and Surgery privilege forms have been amended to the Assistant Director of Imaging, who will coordinate the training documentation with the contracted radiation physicist group.

**Inspire™ procedure**
A request has been received from the Department of Plastic and Reconstructive Surgery to have this new procedure added to the departmental privilege form. In receiving this request, the Credentials Committee endorsed:

1) Although this crosses specialty lines to other surgical departments such as Oral Maxillofacial Surgery and Otolaryngology, and both department Chiefs of Service have expressed interest in having the procedure added to their departmental forms, the current marketing practices of the manufacturer would not afford a physician the opportunity to perform the procedure until approved by the manufacturer. At present, only two physicians from the Plastic and Reconstructive Surgery department are on the manufacturer’s list. It was agreed that if surgeons from departments other than the current Plastic and Reconstructive Surgery are approved and trained by the manufacturer, the privilege will be added to their department form with the same requirements.

2) This procedure does not meet the definition of “New Technology” as defined in the Credential Manual, Clinical Privileges, Section D and so therefore the process delineated in this section would not apply.

3) The Special Requirements attached to the privilege are appropriate, with the third satisfying the FPPE process.

AT INITIAL REQUEST:
1) On list of manufacturer approved providers to perform the procedure
2) Evidence of successful completion of the manufacturer training (DISE)
3) First case under supervision of the Chief of Service or designee

Temporary Privileges
The temporary privileges tracker was reviewed for the committee, noting the privileges granted since the last meeting. The quality control checks confirmed that all were executed in full compliance with policy and accreditation standards.

FOR OVERALL ACTION

NEW BUSINESS
Vizient Mock Survey/JC Readiness
S. Ksiazek provided a brief overview of the recent Vizient mock JC survey and the likely focus areas for the 2019 survey.
In addition to the areas already known (FPPE and OPPE), increased attention is being paid to privilege forms. S.Ksiazek recommends a process be established for at least a bi-annual review of forms by the Chiefs of Service and their corresponding ECMC business partners, especially Ambulatory managers to ensure that all services provided are reflected on the privilege forms.

FOR INFORMATION
OPEN ISSUES
Competency Assessment Documentation
The MICU midlevel group submitted the competency assessment document that accompanies the training syllabus. It appears to follow the privilege form to also serve to satisfy FPPE. The Medical-Dental Staff Office has reached out to the group for some minor revisions to the document and placed into production thereafter.

Letter Template
S.Ksiazek circulated a letter template to be used upon return from leave of absence, which will serve as a more formal documentation of the assessment by the Chief of Service of the need for FPPE. The Committee endorsed the letter template for use.

Note: Over the years, the question regarding physical/mental ability to carry out privileges was removed from the OPPE professional reference and the supervising/collaborating MD OPPE reference form for the AHPs. It seemed prudent to return the question to the forms to ensure that fitness to practice evaluations are continual in nature and the documentation better meets the spirit of the JC standards. The Patient Safety Office has obliged and the verbiage has been returned to the forms.
