

our passion  our patients

My passion...

“Ensuring that the patients we serve have the best experience possible when they are admitted to our hospital is my passion. We are given the opportunity to make a difference in patients’ lives every time we come in contact with them. Building a team of nursing staff members who love what they do, demonstrated to our patients by the care that we provide, has always been my main focus. I am proud that ECMC provides the utmost in quality care, delivered with compassion, allowing our patients to feel respected and truly cared for.”

Renee Delmont, RN, BSN, CMSRN

Unit Manager

Russell J. Salvatore Orthopaedic Unit

Letters from our Patients

We wanted to inform you of the incredible care my husband received from Essence Chestnut during his stay at ECMC. Essence went above and beyond to ensure his comfort and also to assist with my anxiety about leaving him for the night. Essence stated that he was in good hands as she treats all of her patients as though they are her family. Knowing that I was a bit worried, she gave me the phone number to call to check in on my husband while I was at home. I called that night before going to bed and again in the morning. Each time, Essence was very empathetic, caring and informative. Essence’s kind demeanor and her level of care helped to make my husband’s recovery at ECMC better. Essence was exceptional and we believe she should be acknowledged for her wonderful skills. We nominated her for a “Daisy Award” and feel she would be a perfect recipient for this award.

Nichole, wife of ECMC patient
