• KeyBank Trauma and Emergency Department	• Cashier	• Patient Transportation
	• Medical Records	

First Floor

GI Care Lab: (BLUE LINE) *Procedural lab for Colonoscopy, EGD, Flexible sigmoidoscopy testing*
From the lobby you can take the escalator or the single elevator next to the escalator to the first floor. If you take the elevator, you will see windows that overlook Grider Street to your left. If you take the escalator, you will need to take a left and then a right and head towards the window that overlook Grider Street. When facing the windows that overlook Grider Street, take a left down the hallway and you will find the GI Care Waiting room on the left. Patients who are scheduled for procedures generally have been prepped and were told to bring a driver.

GI Center: (BLUE LINE)
From the lobby you can take the escalator or the single elevator next to the escalator to the first floor. You will see a blue line that leads straight past the main elevators and towards Radiology. The path takes a left after Radiology and then a quick right that leads you to a brown wooden door that says "Observation". When you open that door look to the left and you will see the Center for Gastroenterology across the hall. Push the door open and enter the center.
